

Emery Cloth Roll for Grinding and Polishing

This emery cloth roll is designed for grinding, polishing, and finishing across various applications. Its durable abrasive material is ideal for use in metalworking, woodworking, and automotive industries.

Product Overview

Professional Abrasive Solution

This high-quality emery cloth roll is engineered for demanding grinding, polishing, and finishing applications. Designed with a durable, flexible cloth backing, it offers exceptional tear resistance and longevity across various industrial tasks. Suitable for both hand and machine use, it provides consistent performance for metalworking, woodworking, and automotive surface preparation.

Technical Specifications

Usage Compatibility

- Hand use
- Machine use

Key Features

Flexible Backing • Tear Resistant • Long Lifespan

Primary Industries

Metalworking, Woodworking, Automotive
