Product Overview

Durable Gas Cooker Support

This enameled cast iron pan support is engineered as a robust spare part for gas cookers, providing a stable and secure surface for your cookware. The high-quality enameled coating enhances heat resistance and ensures long-lasting durability, making it an ideal choice for replacing worn or damaged components. Its design focuses on safety and reliability, ensuring consistent performance in demanding kitchen environments.

Manufacturing Capabilities

Production Equipment

Machine Type	Quantity
Punch Machine	19
Drilling Machine	9
Cutting Machine	5
Hydraulic Deep Drawing Machine	4
Molding Machine	4
Automatic Welding Machine	4
Folding Machine	3
