

End Cutting Pliers with Ergonomic Grip

These end-cutting pliers are made from premium alloy steel and feature a rust-resistant micro finish. The hardened cutting edges and ergonomic non-slip soft grip handles ensure efficient cutting and comfortable use.

Product Overview

Professional End Cutting Pliers

These end-cutting pliers are engineered for precision and durability, making them an essential tool for various cutting applications. Constructed from premium alloy steel, they feature a rust-resistant micro finish that ensures long-lasting performance in demanding work environments. The design incorporates hardened cutting edges for efficient, clean cuts, paired with ergonomic non-slip soft grip handles to provide maximum comfort and control during extended use.

Technical Specifications

Surface Finish

Rust-resistant • Micro Finish • Nickel-Iron Plated

Material	Premium Alloy Steel
Cutting Edge	Hardened, high-frequency heat treated

Ergonomics & Design

Handle Material	TPR (Thermoplastic Rubber)
Grip Features	Non-slip, Soft Grip, Textured
