

End Cutting Pliers

These end cutting pliers are designed for cutting wires, nails, and rivets flush to a surface. They feature hardened cutting edges and ergonomic handles.

Product Overview

Professional End Cutting Pliers

These high-leverage end-cutting pliers are engineered for precision and durability in demanding environments. Designed to cut wires, nails, and rivets flush to surfaces, they feature hardened cutting edges and a precision-machined head for consistent, accurate performance. The ergonomic handle design ensures comfort and reduces hand fatigue during extended use, making them an essential tool for electrical, construction, and general-purpose applications.

Technical Specifications

Key Features

- High-leverage design
- Hardened cutting edges
- Precision-machined head
- Ergonomic handles

Material	High-quality steel
Cutting Applications	Wires, Nails, Rivets

Applications

Primary Industries

Electrical • Construction • General Maintenance
