Product Overview

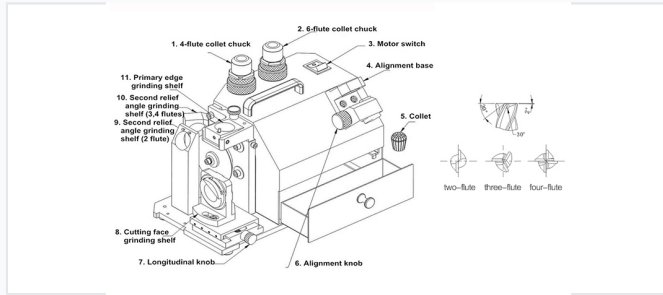

Compact and portable design suitable for various workshop environments.

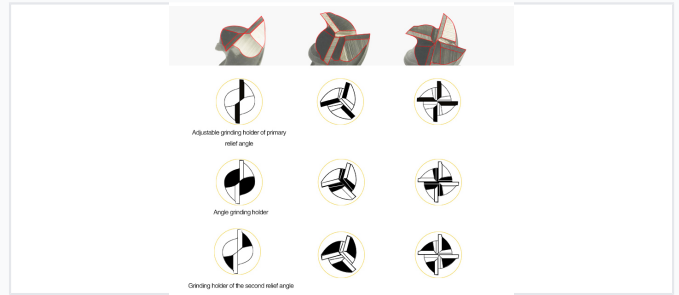

High-Precision End Mill Sharpening

This portable end mill sharpener is designed for rapid and accurate grinding of 2-flute, 3-flute, and 4-flute end mills. Engineered for ease of use, it allows operators to achieve professional sharpening results without requiring advanced grinding skills. The machine is built for durability and precision, making it an essential tool for maintaining optimal cutting performance in small to medium enterprises, workshops, and repair facilities.

Technical Specifications

Detailed view of the sharpening machine controls, including alignment bases and grinding shelves for primary and secondary relief angles.

The machine features specialized grinding holders for primary and secondary relief angles to ensure precise tool geometry.

Diameter Range	13 mm
Maximum Diameter	30 mm
Power Supply	220V / 250W
Rotation Speed	4400 rpm
Point Angle	0°-5°
Dimensions	40 x 28 x 31 cm
Weight	28 kg

Capabilities

Compatible Flute Counts	2-flute, 3-flute, 4-flute
