Overview

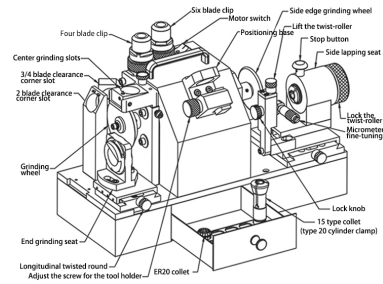

Precision grinding capabilities for end faces, center angles, and clearance angles.

Precision End Mill Sharpening

This portable end mill sharpener is engineered for accurate and rapid grinding of 2, 3, 4, and 6-flute end mills. Designed for ease of use, it requires minimal operator skill while delivering professional results. The unit features a durable diamond grinding wheel capable of completing all sharpening procedures in a single setup, ensuring consistent angles and extended tool service life.

Technical Specifications

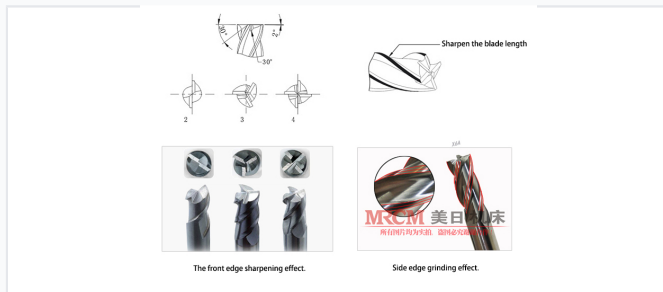

Key components including the side edge grinding wheel, micrometer fine-tuning, and ER20 collet system.

Model	MR-X6
Grinding Diameter	4-14mm
Power	250 W
Voltage	220 V
Rotation Speed	4400 rpm
Point Angle	0°-5°

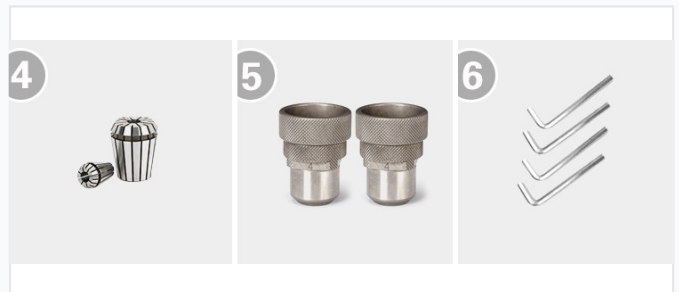

Physical Attributes

Dimensions	42 x 25 x 30 cm
Weight	23 kg

Equipment & Compatibility

Demonstration of front edge and side edge sharpening effects for 2, 3, and 4 flute end mills.

Included collets and adjustment tools for secure tool holding and precise setup.

Grinding Wheel Options

Wheel Type	Material Application
SDC (Standard)	Carbide
CBN (Optional)	HSS

Supported Flute Counts	2-flute, 3-flute, 4-flute, 6-flute
