

End-Suction Peripheral Pump

The end-suction peripheral pump is designed for efficient fluid transfer in various applications. It features a robust construction for durability and is suitable for clean water and non-corrosive liquids.

Product Overview

KF/O Series End-Suction Peripheral Pumps

The KF/O series end-suction peripheral pumps are engineered for efficient fluid transfer across diverse applications, including domestic, agricultural, and industrial environments. Featuring a robust construction and an optimized impeller design, these pumps ensure long-lasting durability and consistent flow performance. Their compact, quiet operation and user-friendly end-suction design facilitate easy installation and maintenance for clean water and non-corrosive liquid systems.

Technical Specifications

Primary Applications

Domestic • Agricultural • Industrial

Pump Type	End-Suction Peripheral Pump
Suitable Fluids	Clean Water, Non-corrosive Liquids

Key Features

Performance Highlights

- High-performance motor
- Optimized impeller design
- Reliable sealing system
- Compact design
- Quiet operation
