

Endless Loop Round Sling

This high-strength, endless loop round sling is designed for heavy lifting. It is constructed from durable synthetic fibers encased in a protective sleeve, offering superior load-bearing capacity and flexibility.

Product Overview

High-Performance Endless Loop Round Sling

This durable round sling is engineered for heavy lifting, featuring a high-strength synthetic core protected by a robust jacket. Its flexible and pliable design conforms perfectly to various loads, while the jacket prevents damage from abrasion, oil, and UV exposure. Suitable for vertical, choker, and basket hitches, this sling is a versatile solution for diverse rigging and hoisting requirements.

Technical Specifications

Working Load Limit (WLL)

10000 kg
Rated Capacity

Key Features

Mildew Resistant, Rot Resistant, UV Resistant, Abrasion Resistant

Operational Details

Compatible Hitch Configurations

- Vertical Hitch
- Choker Hitch
- Basket Hitch

Design Advantages

- Non-absorbent synthetic fibers
- Protective load-bearing core jacket
- Surface protection for delicate loads
- High flexibility and pliability
