

# Energy-Efficient CFL Bulb with Screw Base

This compact fluorescent lamp (CFL) is designed as an energy-efficient alternative to incandescent bulbs. It features a folded tube design for a compact size and an E26 or E27 screw base for easy installation in standard light fixtures.

## Product Overview

### Energy-Efficient Lighting Solution

This compact fluorescent lamp (CFL) serves as a highly efficient alternative to traditional incandescent bulbs. Featuring a unique folded tube design, it maintains a compact form factor while delivering comparable light output. Designed for standard residential and commercial fixtures, it offers significant energy savings and an extended operational lifespan.

## Technical Specifications

Base Type	E26/E27 Screw Base
Lamp Technology	Compact Fluorescent Lamp (CFL)
Design Features	Energy-Efficient, Folded Tube Design, Compact Size

## Benefits

### Key Advantages

- Significant energy savings compared to incandescent bulbs
- Extended product lifespan
- Easy installation in standard fixtures
- Compact footprint
