

Energy Efficient LED Bulb

This LED bulb provides stable and efficient lighting. It offers high energy efficiency, saving up to 85% of energy compared to traditional lights.

Overview

High-Performance LED Lighting

This high-power LED bulb is engineered for efficient and long-lasting illumination, making it an excellent choice for both commercial and residential lighting applications. Designed with robust heat-dissipating fins, it ensures optimal thermal management for consistent performance. The bulb provides bright, uniform light output while maintaining low energy consumption, offering a reliable lighting solution for various environments.

Technical Specifications

Available Power Ratings

- 5W
- 10W
- 15W
- 24W
- 36W

Input Voltage	AC 100-240V
---------------	-------------

Compatible Sockets	B22, E27
--------------------	----------

Features

Suitable Applications

Commercial • Residential

Thermal Design	Yes
