

# Energy Efficient LED Bulb

Energy-efficient LED bulb designed for general lighting applications. It provides bright, uniform illumination with reduced energy consumption compared to traditional incandescent bulbs.

## Overview

### Energy Efficient Illumination

This energy-efficient LED bulb is designed for versatile general lighting applications in both residential and commercial environments. It provides bright, uniform illumination while significantly reducing energy consumption compared to traditional incandescent lighting solutions. With a standard screw base, it ensures easy installation across a variety of fixtures, and its long lifespan helps minimize the frequency of replacements.

## Technical Specifications

### Luminous Flux

**800 lm**  
Brightness

### Power Consumption

9 W

## Features

### Suitable Applications

Residential, Commercial, General Lighting

### Base Type

Standard Screw Base
