

# Energy-Efficient LED Light Bulb

This energy-efficient LED bulb is designed for residential and commercial lighting. It features a standard E14 base for easy installation and provides bright, uniform illumination with low power consumption.

## ADDITIONAL IMAGES

## Overview

### Energy-Efficient Illumination

This energy-efficient LED bulb is designed for versatile lighting applications, offering significant energy savings compared to traditional incandescent bulbs. Featuring a unique flame-shaped design with a frosted finish, it provides soft, diffused, and consistent light output. It is an ideal, durable, and reliable lighting solution for both residential and commercial spaces.

## Technical Specifications

Base Type	E14
Design Features	Flame-shaped, Frosted Finish, Durable Construction

## Performance

### Performance Highlights

<b>1 N/A</b> Low Heat Generation	<b>1 High</b> Energy Efficient
