Product Overview

Performance Engine Camshaft

This high-performance camshaft is precision-engineered to enhance engine output by optimizing valve lift and duration. Designed for durability and reliability, it helps improve overall horsepower, torque, and throttle response. It is a critical component for engine upgrades, ensuring consistent performance across various operating conditions.

Technical Specifications

OEM Number	3929885
Compatible Engine Model	Cummins 4BT
HS Code	848310

Logistics & Ordering

Payment Terms	
T/T • L/C	
Minimum Order Quantity	10 pcs
Packaging	1 pcs per polybag in a wooden box
Shipping Methods	Vessel, Air
