Product Overview

High-Performance Engine Cylinder Head

This precision-engineered cylinder head is designed for optimal performance and durability in internal combustion engines. Manufactured from high-quality materials to withstand extreme temperatures and pressures, it features precisely machined valve seats and an optimized port design for enhanced airflow. Available for both cast iron and aluminum applications, this component ensures efficient combustion and maximum power output.

Technical Specifications

Compatible Models

- LYP20048-5-1
- LYP20186-1-4

Material Composition

Cast Iron, Aluminum

Ordering & Logistics

Recommended Shipping

Sea Freight (Recommended) • Air Freight (Available for single units)

Bulk Discount Threshold

10000 USD

Order Value for Discount

Production Lead Time

20-40 working days for large or non-regular orders

Minimum Order Quantity

1

Customization

Customization Basis

- Customer Samples
- Technical Drawings
