Product Overview

Precision-Engineered Cylinder Head

This high-performance cylinder head is designed specifically for ISX and QSX15 DOHC engines. Engineered to house critical engine components including valves and combustion chambers, this unit ensures reliable operation and optimal power delivery. Built with high-quality materials, it serves as a robust replacement part designed to meet rigorous industry standards for heavy-duty applications.

Technical Details

Primary Functions

- Housing for engine valves
- Combustion chamber enclosure
- Coolant passage management

Compatible Engines

ISX, QSX15, DOHC

Compatibility Reference

Engine Head Catalog

Engine Model	Liters	Part Number
ISX15	15L	4962732
C15	15.2L	2454324
C12	12L	1323252
C9	9L	3323619
NT855	14L	4915442 / 3418678
