

Engine Cylinder Head Gasket

This high-quality engine cylinder head gasket ensures a tight seal between the engine block and cylinder head. The gasket is constructed from durable materials to withstand high temperatures and pressures within the engine.

Product Overview

High-Performance Cylinder Head Gasket

This engine cylinder head gasket is engineered to provide a reliable, high-pressure seal between the engine block and the cylinder head. Designed to meet or exceed OEM standards, it effectively prevents fluid leaks and maintains consistent compression for optimal engine performance. Constructed from durable, heat-resistant materials, this component is built to endure the demanding thermal and mechanical stresses of modern automotive engines.

Technical Specifications

Compatible Engine Model	BYD473QE
Part Number	1003030
Key Features	High-Temperature Resistance, High-Pressure Seal, OEM Specification Compliance, Durable Construction
