

Engine Cylinder Head Gasket for Komatsu S6D95L

This cylinder head gasket is specifically designed for Komatsu S6D95L engines. It ensures a tight seal between the engine block and cylinder head, preventing leaks and maintaining optimal engine compression.

Product Overview

High-Performance Engine Sealing Solution

This cylinder head gasket is precision-engineered to ensure a tight, reliable seal between the engine block and the cylinder head. Designed to withstand high temperatures and extreme operating pressures, it effectively prevents leaks and maintains optimal compression for efficient engine performance. This component is essential for engine maintenance and repair, helping to ensure combustion efficiency and minimize emissions in demanding industrial environments.

Technical Specifications

Material

Metal

Engine Model Compatibility

S6D95L

OEM Number

6206-11-1830

Kit Information
