

# Engine Cylinder Liner

This precision-engineered cylinder liner ensures a tight seal and efficient heat transfer within the engine cylinder. Constructed from durable materials, it resists wear and corrosion, extending the engine's lifespan.

## ADDITIONAL IMAGES

## Overview

### Precision Engine Cylinder Liner

This high-performance cylinder liner is engineered for Cummins ISX engines, ensuring optimal combustion and engine longevity. Constructed from durable cast iron and steel, it features advanced surface treatments including nitriding and phosphating for superior wear resistance. Designed with a 137mm bore, it provides reliable sealing and efficient cooling to maintain peak engine performance.

## Technical Specifications

### Surface Treatment

- Phosphating
- Platform
- Vulcanization
- Nitriding

<b>Bore Diameter</b>	137 mm
<b>Total Length</b>	270.55 mm
<b>Hardness (HB)</b>	210-280
<b>Material</b>	Cast iron, Steel

## Compatibility & Performance

### Key Features

Good sealing • Good cooling effect • Wear-resistant

<b>Compatible Engine Code</b>	B3904166
-------------------------------	----------

## Logistics & Warranty

### Warranty Period

**12 months**

Warranty

### Monthly Supply Ability

5000 pieces
