Product Overview

High-Performance Engine Fuel Injector

This precision-engineered fuel injector is designed to ensure optimal fuel delivery for heavy-duty diesel engines. It is built to enhance overall engine performance, improve fuel efficiency, and reduce emissions in demanding operational environments. Each unit undergoes rigorous testing to meet strict quality standards, guaranteeing reliability and durability for your engine maintenance needs.

Technical Specifications

Part Number	4914453
Compatible Engine Series	K19, K38, NT855, M11
Injection System Type	PTD
Application	Diesel Engine Spare Parts

Quality Assurance

Quality Compliance

Rigorous Testing • High Durability
