

Engine Gasket for Hino EF750 Diesel and Gasoline Engines

This engine gasket provides a reliable seal between engine components in Hino EF750 diesel and gasoline engines. It is constructed from durable materials to withstand high temperatures and pressures, ensuring efficient combustion and reduced emissions.

Product Overview

Engine Gasket Overview

This high-performance gasket set is precision-engineered for compatibility with specific diesel and gasoline engines. Designed to provide a reliable seal between critical engine components, it effectively prevents leaks and maintains optimal pressure for efficient combustion. Constructed from durable materials, this gasket is built to withstand the rigors of high-temperature and high-pressure operating environments.

Compatibility

Engine Model	EF750
Compatible Car Model	Hino

Technical Details

Cylinder Head Gasket OEM

- 11115-2030
- 11115-1730
- 11115-1840

Overhaul Full Set OEM	04101-0292/0190
