

Engine Mounting and Rotating Stand

This heavy-duty engine stand is designed for securely mounting and rotating engines during repair or assembly. It features a robust steel construction with a four-legged base for stability and casters for mobility.

Product Overview

Professional Engine Maintenance Stand

This heavy-duty engine stand is engineered for professional workshop environments, providing a secure platform for engine repair and assembly tasks. It features a robust steel construction with a stable four-legged base, ensuring safety during operation. With a 360-degree rotating head and adjustable mounting arms, this stand offers the versatility needed to accommodate various engine configurations while allowing precise positioning.

Construction & Design

Construction Material	Robust steel
Base Configuration	Four-legged base

Operational Features

Rotation Range	<div style="border: 1px solid #ccc; padding: 5px; display: inline-block;">360 degrees <small>Rotation</small></div>
Locking Mechanism	Yes
Compatibility	Adjustable mounting arms, Multi-engine support

Mobility

Mobility	Integrated workshop casters
