

Engine Oil in Red and Yellow Containers

Engine oil is packaged in red and yellow containers. The containers include labels containing technical specifications.

Product Overview

High-Performance Diesel Lubrication

This premium diesel engine oil is formulated to provide robust protection and reliable performance in demanding operating conditions. Designed for versatility and efficiency, the lubricant helps maintain engine cleanliness and reduce wear over extended service intervals. The product is conveniently packaged in distinct red and yellow containers, ensuring easy identification for maintenance teams and workshop staff.

Technical Specifications

Container Identification

- Red Container
- Yellow Container

Viscosity Grade	CC40
Application	Diesel Engine, Automotive Maintenance, Lubrication
