

# Engine Piston Assembly

This high-performance piston assembly includes a lightweight piston, precision-machined piston pin, and secure circlips. It is designed for optimal engine performance, ensuring efficient combustion and reliable connectivity.

## ADDITIONAL IMAGES

## Product Overview

### High-Performance Engine Piston Assembly

This engine piston assembly is engineered for durability and reliable performance in demanding automotive applications. Featuring precision-machined components, including the piston, pin, and retaining clips, it is designed to optimize combustion efficiency and reduce internal friction. This robust assembly is suitable for high-stress engine environments, ensuring consistent operation and longevity.

## Technical Specifications

|                         |            |
|-------------------------|------------|
| OEM Number              | 13306-1060 |
| Compatible Engine Model | Hino J08C  |
| HS Code                 | 840999     |

## Logistics & Ordering

### Payment Terms
