

Engraving and Etching Machine

This engraving and etching machine is designed for precise material processing. It delivers accuracy and repeatability for creating detailed designs on various materials.

Product Overview

Heavy-Duty Splitting Tool

This maul axe is expertly engineered to combine the force of a sledgehammer with the precision of an axe, making it an essential tool for efficient wood splitting. Its heavy, wedge-shaped head is constructed from hardened steel to deliver maximum impact and splitting power. The durable fiberglass handle provides excellent shock absorption and weather resistance, ensuring longevity and reliability in demanding outdoor environments.

Technical Specifications

Head Material	Hardened Steel
Handle Material	Fiberglass
Key Features	Shock-absorbent, Weather-resistant, Ergonomic Grip, Wedge-shaped Head

Usage

Primary Applications

- Splitting logs
- Firewood preparation
