

# Engraving and Etching Machine

This machine is designed for engraving and etching various materials. It features safety features such as overload protection, over-temperature protection, and short-circuit protection to ensure safe and reliable operation.

## Product Overview

### Reliable Power Conversion

This power inverter efficiently converts DC power from batteries or other DC sources into standard AC power, enabling the use of household appliances and electronics in remote locations. Designed with comprehensive safety features including overload, over-temperature, and short-circuit protection, it ensures reliable operation for sensitive equipment. It is an ideal solution for powering laptops, smartphones, cameras, and small appliances on the go.

## Technical Specifications

### Rated Power Output

**300 W**

Power Output

### Output Interfaces

- Standard AC Outlet
- USB Charging Port

### Model Identifier

PC-300

## Safety & Features

### Safety Protections

Overload Protection, Over-temperature Protection, Short-circuit Protection

### Control Interface

On/Off Switch
