

Engraving and Etching Machine

This machine is designed for engraving and etching various materials. It delivers detailed and accurate marking for industrial and commercial applications.

Product Overview

Professional Firefighting Tool

This specialized fire axe, or pick head axe, is engineered for critical firefighting and rescue operations. It features a hardened steel head with a dual-purpose design, combining a sharp cutting edge for demolition with a pick for prying and forced entry. The ergonomic wooden handle ensures a secure grip, while the high-visibility red finish improves safety in low-light or smoke-filled environments.

Technical Specifications

Head Material	Hardened Steel
Handle Material	Wood
Head Features	Cutting Edge, Pick Head, High-Visibility Red

Usage & Application

Primary Applications

- Forced entry
- Structure ventilation
- Rescue operations
- Chopping materials
- Prying and breaking
