

Entry-Level Steel Frame Mountain Bicycle

This mountain bicycle is designed for recreational and light trail use. It features a durable steel frame, front suspension fork, and reliable V-brakes.

Overview

Built for Reliability and Comfort

This entry-level mountain bicycle features a robust 26-inch steel frame designed for durability on light trails and recreational paths. Equipped with a reliable Shimano drivetrain and responsive Promax V-brakes, it offers smooth gear transitions and consistent stopping power. The inclusion of a suspension fork and a comfortable saddle ensures an enjoyable riding experience for beginners.
