

Ergonomic Mesh Lumbar Support

This ergonomic mesh lumbar support is designed to provide comfort and support to the lower back. Its breathable mesh construction ensures ventilation, while its contoured shape promotes proper spinal alignment.

Product Overview

Ergonomic Mesh Lumbar Support

This ergonomic lumbar support is designed to enhance comfort and provide essential lower back stability during extended periods of sitting. Featuring a breathable mesh construction and an internal iron wire frame, it encourages proper spinal alignment while ensuring optimal ventilation. Its versatile design makes it an ideal accessory for office chairs, car seats, and various seating environments.

Physical Properties

Materials	Net cloth, Iron wire
Model Number	THYK-10301WB/1

Features

Product Features
