Product Overview

Ergonomic Comfort for Professionals

This ergonomic mouse pad is engineered to provide superior wrist support during extended computer sessions, effectively reducing strain and fatigue. Featuring a soft silicon gel-filled rest, it ensures optimal comfort for home, office, or gaming environments. The durable non-slip base keeps the pad securely in place, while the high-quality surface allows for precise tracking.

Technical Specifications

Recommended Use

- Corporate Office
- Home Workspace
- Gaming Station

Material Composition

Silicon Gel, Non-slip Base

Customization Capability

Supports custom high-resolution printing (Artwork requirements: AI, EPS, PDF, or CDR at 300 DPI)

Product Features

Key Benefits

- Silicon gel wrist rest to prevent strain
- Non-slip base for stability
- High-resolution print surface
- Promotional branding potential
