

Ergonomic Silica Gel Neck Support Headrest

This ergonomically designed headrest features a silica gel insert for enhanced comfort. It is constructed with breathable fabric and conforms to the neck, promoting spinal alignment and reducing fatigue.

Product Overview

Ergonomic Comfort Solution

This neck support headrest combines durable polyester fabric with a specialized silica gel insert to provide superior pressure relief and comfort. Designed to promote proper spinal alignment, the ergonomic shape effectively reduces fatigue during travel or daily use. Its versatile design makes it an ideal accessory for cars, airplanes, or home use, ensuring a breathable and cooling experience for the user.
