

# Ergonomic USB Optical Mouse

This is an ergonomic optical computer mouse designed for comfortable extended use. It has a standard three-button configuration and utilizes optical tracking for precise cursor control.

## ADDITIONAL IMAGES

## Product Overview

### Ergonomic Design for Productivity

This ergonomic optical mouse is engineered for comfort during extended computer use, featuring a contoured shape that fits the hand naturally to reduce strain. It utilizes reliable optical tracking for precise cursor control across a variety of surfaces. With a simple plug-and-play wired USB interface, it offers consistent performance without the need for batteries, making it an ideal choice for professional office environments.
