

Ergonomic Wired Optical Mouse

This ergonomic optical mouse is designed for comfortable use. It features a standard two-button design with a scroll wheel and a wired connection.

Overview

Designed for Comfort and Precision

This ergonomic wired optical mouse is engineered to minimize strain during extended periods of use, making it an ideal choice for both home and professional office environments. Featuring a reliable wired connection, it eliminates the need for batteries and ensures consistent performance throughout the workday. Its high-precision optical sensor allows for smooth and accurate tracking across a wide variety of surfaces.

Technical Specifications

Interface Design

- Standard two-button layout
- Integrated scroll wheel

Connection Type	Wired
Sensor Technology	Optical

Design & Ergonomics

Available Colors

Silver • Black

Suitable Environments

- Home office
- Professional workspace

Ergonomics	Ergonomic shape, Strain reduction, Extended use design
