

Ergonomic Wireless Optical Mouse

This ergonomic wireless optical mouse is designed for comfortable use and precise tracking. It features a contoured shape to fit the hand naturally, reducing strain during extended use.

Product Overview

Ergonomic Design for Professional Use

This ergonomic wireless optical mouse is engineered for maximum comfort and precise tracking during extended work sessions. Its contoured shape is specifically designed to fit the hand naturally, significantly reducing wrist and palm strain. With advanced optical sensor technology, it delivers accurate cursor control across a wide range of surfaces, making it an ideal choice for professional office environments.

Technical Specifications

Connectivity	Wireless
Sensor Technology	Optical
Installation	Plug-and-Play

Compatibility
