

Ethernet Patch Cord

These Ethernet patch cords facilitate reliable network connections. They are compatible with Cat5, Cat6, and Cat7 standards.

Product Overview

High-Performance Networking Solutions

These Ethernet patch cables are engineered to provide reliable and high-speed network connectivity for a variety of professional environments. Compatible with Cat5, Cat6, and Cat7 standards, they ensure optimal data transmission and bandwidth capacity. Designed with durable materials, these cables are suitable for demanding applications in data centers, offices, and home networking setups, while available color options simplify cable management.

Technical Specifications

Ideal Applications

- Data Centers
- Office Networks
- Home Networking
- Cable Management Systems

Key Features

High Performance • Durable Construction • Color-Coded Options

Supported Standards

Cat5, Cat6, Cat7
