

# Etios 1.5 Gas Engine Piston

This piston is engineered for optimal combustion and durability in Etios 1.5 gas engines. Its robust construction withstands high temperatures and pressures, contributing to extended engine life.

## ADDITIONAL IMAGES

## Product Overview

### High-Performance Piston for Etios 1.5

This high-performance piston is specifically engineered for Etios 1.5 gas engines, focusing on optimal combustion efficiency and long-term durability. Its robust construction is designed to withstand high cylinder pressures and temperatures, contributing to an extended engine service life. Precision-machined ring grooves ensure effective oil control and compression sealing, meeting or exceeding OEM standards for reliable fit and function.

## Technical Specifications

### Key Features

- Precision-machined ring grooves
- High-temperature resistance
- Optimal compression sealing
- Lightweight design

### Performance Metrics

**1.5 L**

Engine Displacement

### Engine Compatibility

Etios 1.5 Gas Engine

## Quality & Compliance

### Compliance

OEM Specification Compliant, High-Pressure Rated
