## Product Overview

### Professional European Electrical Solutions

This European-style electrical switch and socket range combines modern aesthetics with robust engineering for residential and commercial applications. Built with high-quality PC materials and silver alloy contacts, these components ensure long-lasting durability and reliable performance. The versatile design allows for seamless integration into various interior styles, supported by essential safety certifications.

## Technical Specifications

### Switch Lifespan

**40000 cycles**

On-Off Operations

### Material Composition

Component	Material
Frontplate	Environmental-protection PC
Switch Contacts	Silver Alloy
Socket Clips	Phosphor Bronze

## Design & Aesthetics

### Available Finishes

Titanium (TTA), Champagne (CHM), Black (BLK), White (WHI)

## Compliance & Standards

### Certifications

CE • TUV • NF

## Installation Details

### Mounting Options

- Surface mounting
- Flush mounting
