

European Standard 2-Pin AC Power Plug

This plug is a two-pin electrical connector designed for European and similar power outlets. It is constructed from durable plastic and features metal pins for conducting electricity.

Product Overview

European Standard AC Plug

This European standard 2-pin AC power plug is engineered for reliable power transmission in residential and commercial environments. Constructed from high-quality ABS material, it features durable copper components to ensure a secure and stable electrical connection. Designed for safety and ease of use, this plug is an essential component for connecting various appliances and electronic devices to standard mains electricity supplies.

Technical Specifications

Pin Diameter	4 mm
Pin Material	Copper
Grounding	Iron grounding

Construction

Housing Material	ABS Plastic
Internal Components	Copper parts, Iron grounding
