Product Overview

European Standard Power Connectivity

This European standard 2-prong power plug and socket assembly is engineered for reliable power transmission and distribution in various electrical appliances. Featuring a robust construction with a 4.0mm copper pin design, it ensures stable connectivity and safety. The unit is CE certified, making it suitable for professional applications requiring compliance with European safety standards.

Technical Specifications

Rated Current	10 A
Rated Voltage	250 V
Pin Diameter	4 mm
Certifications	CE

Materials and Design

Construction Materials

- ABS Housing
- Copper Components

Available Colors

White • Black
