Product Overview

European Standard Electrical Plug and Socket

This European-style plug and socket set is designed for reliable electrical power transmission and distribution. Engineered for safety and performance, it features a durable ABS housing and high-quality copper components. It is suitable for a wide range of electrical applications requiring a secure connection to the power grid.

Technical Specifications

Pin Diameter

- 4.0mm
- 4.8mm

Rated Voltage	250 V
---------------	-------

Rated Current	16 A
---------------	------

Materials and Construction

Housing Material	ABS
Contact Material	Copper
Key Features	Grounding Contact, Spring Mechanism

Compliance

Country of Origin	China
