## Product Overview

### Versatile All-Season Comfort Solution

The WJD20F-1R is a high-performance 2-in-1 evaporative air cooler and PTC heater designed for year-round indoor climate control. It features a high-tech centrifugal wind wheel for large airflow with low noise, alongside a negative ion generator to purify the air. With its portable design, remote control functionality, and multiple wind modes, it provides a smart and energy-saving solution for spaces ranging from 10 to 15 square meters.
