

# Evaporative Air Cooler with 30L Capacity

This air cooler provides powerful cooling with a 30L capacity. It utilizes water evaporation to efficiently lower the surrounding temperature.

## ADDITIONAL IMAGES

## Product Overview

### Efficient Evaporative Cooling

This evaporative air cooler offers a versatile and cost-effective cooling solution for home and office environments. Featuring a generous 30L water tank, it ensures long-lasting operation, while the included anion generator helps improve indoor air quality. With multiple fan speeds, wind modes, and oscillation features, users can easily customize their cooling experience for maximum comfort.

## Technical Specifications

### Water Tank Capacity

**30 L**

Water Capacity

**Power Consumption** 180 W

**Fan Speed Settings** 3

## Control & Features

### Key Features

- Anion Generator
- Low Water Warning
- Wind Angle Oscillation
- Portable Caster Wheels
- Remote Control (Model ZLF-2803RC)

**Wind Modes** Normal, Natural, Sleeping

**Timer Setting** 7.5 hours
