Overview

High-Efficiency Evaporative Cooling

Our evaporative air cooler is engineered with a durable PP and ABS plastic shell, ensuring a robust and reliable structure for long-term use. Designed for high efficiency, it features a powerful 8000 CBM airflow and a 3-gear speed control system to adapt to various environmental temperatures. Every unit undergoes strict quality inspection, guaranteeing smooth operation, low noise levels, and consistent performance for indoor environments.

Performance & Operation

Airflow Rate

8000 m³/hr
Airflow Capacity

Motor Rotation Speeds

- 850
- 1050
- 1350

Temperature Reduction

5-10 degrees Celsius

Technical Specifications

Motor Power	120 W
Pump Power / Delivery Head	16W / 140cm
Water Reservoir Capacity	55 L
Water Consumption	5-6 L/Hr
Ventilation Type	Axial Fan

Physical Characteristics

Available Colors

Deep blue • Light blue • Dark grey • Light grey • White

Product Dimensions (L*W*H)

605 * 400 * 1180 mm

Weight (Net/Gross)

16KG / 18KG

Logistics & Accessories

Loading Capacity (40HQ)

194 pcs

Included Accessories

Ice box, 2 Ice packs
