

Evaporative Air Cooler with Adjustable Louvers

This evaporative air cooler provides efficient and cost-effective cooling. It features a large water tank for extended operation, adjustable louvers for directional airflow, and multiple fan speeds for customized comfort.

Product Overview

Efficient Cooling Solution

This evaporative air cooler is designed to provide efficient and cost-effective cooling for various indoor environments. Featuring adjustable louvers for precise airflow direction and multiple speed settings, it allows for customized comfort. With a large water tank for extended operation and a washable filter for clean air circulation, this unit is a practical solution for homes and offices.

Key Features

Airflow Control	Adjustable louvers for directional airflow
Portability	Yes
Maintenance	Washable Filter, Easy to Clean

Performance

Cooling Method	Evaporative Cooling
Fan Speeds	Multiple speed settings
