

Evaporative Air Cooler with Adjustable Louvers

This air conditioning fan provides cooling through water evaporation, featuring a multi-speed fan and adjustable louvers for directional airflow. It is designed for portability with caster wheels and includes an easy-to-use control panel for adjusting settings.

Product Overview

Efficient Cooling Solution

This evaporative air cooler offers a versatile and portable cooling solution designed for professional environments. By utilizing advanced water evaporation technology, it provides effective temperature reduction while maintaining energy efficiency. The unit is equipped with user-friendly controls and adjustable airflow settings to ensure optimal comfort in various workspace conditions.

Key Performance
