

Evaporative Air Cooler with Ice Crystal Boxes

This evaporative air cooler is designed for home use and features a rapid cooling system. It utilizes high-quality ball bearings and three cooling pads for an enhanced cooling effect.

Product Overview

Efficient Cooling Solution

This evaporative air cooler is designed for effective cooling through natural water evaporation, making it an ideal solution for dry climates. Featuring a robust 120W motor and a 35L water tank, it provides consistent airflow for spaces up to 40m². Its compact, mobile design includes caster wheels for easy movement, ensuring comfort wherever it is needed.

Performance Metrics

Key Performance Indicators

6000 m³/h

Air Flow

35 L

Water Tank Capacity

120 W

Power Consumption

Technical Specifications

Electrical Requirements

Parameter	Value
Voltage	220V
Frequency	50Hz

Dimensions & Weight

- Product Size: 500 x 350 x 950 mm
- Carton Size: 540 x 375 x 915 mm
- Gross Weight: 11.5 kg
- Net Weight: 9.6 kg

Logistics & Usage

Applicable Area	25-40m ²
40HQ Loading Capacity	364 PCS

Features

Control Features	Mechanical Control, Remote Control, Glass Cover
