

Evaporative Air Cooler with Remote Control

This evaporative air cooler provides efficient and cost-effective cooling. It features a large-capacity water tank for extended use, multiple fan speeds, and a remote control for convenient operation.

Product Overview

Efficient Cooling Solution

This evaporative air cooler offers a cost-effective and energy-efficient alternative to traditional air conditioning systems, making it ideal for both home and office environments. By utilizing advanced evaporative cooling technology, the unit effectively lowers ambient air temperatures while maintaining a comfortable atmosphere. Designed for convenience, it includes a remote control, an intuitive LED control panel, and easy-to-read water level indicators.

Technical Specifications

Cooling Technology	Evaporative Cooling
Fan Speed Settings	Multiple speeds

Usability & Features

Maintenance & Mobility

- Washable filter for easy maintenance
- Caster wheels for portability
- Water level indicator

Control Interface	Remote Control, LED Control Panel
Water Tank Capacity	Large-capacity tank for extended use
