

# Evaporative Air Cooler with Remote Control

This evaporative air cooler provides energy-efficient and environmentally friendly cooling. It is easily operated with a remote control and is portable due to its wheels.

Product specification	
Product model	ZC-35Y
Max airflow rate	3500m <sup>3</sup> /h
Max air pressure	25Pa
Max noise level	61dB(A)
Power	0.12kw
Water capacity	25L
The control mode	Remote control/touch
Water tank capacity	25L
Air flow adjustment	Three speeds
Wheels	48*58
Net weight	Standard T piece
Effective area	10-30m <sup>2</sup>
The net weight	15.7kg
Physical dimension	490*360*800mm
Dimension of air outlet	380*430mm

## ADDITIONAL IMAGES

## Overview

Portable ZC-35Y evaporative air cooler featuring adjustable louvers and intuitive control interface.

## Professional Cooling Solution

This industrial-grade evaporative air cooler is designed for high-performance cooling in spaces ranging from 10 to 30 square meters. Featuring a powerful airflow of 3500 cubic meters per hour, it combines energy efficiency with a quiet operating experience. Its portable design with brake-equipped wheels ensures easy mobility, while advanced features like UV sterilization and remote control functionality provide added convenience and hygiene.

## Performance Metrics

### Key Performance Metrics

**3500 m<sup>3</sup>/h**

Max Airflow

**25 Pa**

Max Air Pressure

**61 dB**

Max Noise Level

**25 L**

Water Tank Capacity

## Technical Specifications

### Electrical Data

Parameter	Value
Voltage/Frequency	220V/50Hz
Power Consumption	0.12 kW
Working Current	0.55 A

### Physical Dimensions

- Unit Dimensions: 495 x 350 x 890 mm
- Air Outlet Dimensions: 380 x 438 mm
- Net Weight: 15.7 kg

## Features

### Recommended Applications

Business Office • Living Room • Hotel Lobby • Gym • Beauty Salon • Yoga Hall

### Advanced Functions

Remote Control, Touch Panel, UV Sterilizing, Speed Shifting, Timer, Swing Mode, Dust-proof Design
