Product Overview

Natural Evaporative Humidification

The CF-6218 is a sophisticated evaporative humidifier designed to improve indoor air quality by naturally adding moisture to the environment. Utilizing advanced evaporation technology, it draws dry air through a saturated filter mat, releasing clean, humidified air without the risk of spreading minerals or white dust. This unit is ideal for maintaining optimal comfort in homes and offices, offering quiet operation and a modern, compact design that integrates seamlessly into any space.

Technology & Performance

Evaporative technology draws air through a damp mat, cleaning it and adding optimal moisture.

Humidification Principle	Evaporative
Air Purification	Dust Removal, Dirt Particle Cleaning, Mineral-Free Mist
Automatic Humidity Control	Yes

Design & Construction

The top-mounted control panel and spiral grill design provide intuitive operation and efficient airflow.

Unit Components

- Water Tank
- Evaporator Mat
- Fan Assembly
- Control Panel
- Water Level Indicator

Design Style

Concise Cylinder

Air Outlet Design

Spiral Grill

Maintenance & Usage

The specialized filter mat is designed for maximum surface area and optimal water absorption.

Maintenance Requirements

Component	Action
Water Tank	Periodic Refilling
Filter Mat	Regular Replacement

Safety Features

Automatic Shut-off • Water Level Indicator
