

Excavator Bucket Adapter 206-939-5120

Komatsu PC300 adapter welds onto excavator buckets for secure attachment. It is made from alloy steel with hardness HB 470-520.

Product Overview

Heavy-Duty Excavator Component

This high-performance bucket adapter is engineered for demanding excavation and earth-moving applications. Designed for secure bucket attachment, it provides reliable durability and optimal operational efficiency in tough construction environments. Manufactured through precision casting methods, it is built to withstand rigorous daily use.

Technical Specifications

Precision-cast alloy steel bucket adapter designed for high-stress excavation environments.

Part Number	206-939-5120
Material	Alloy steel
Production Method	Casting
Weight	12 kg
Color	Yellow

Mechanical Properties

Hardness	HB 470-520
Impact Resistance	15 J
Tensile Strength	1450 N/mm ²
Yield Strength	1100 N/mm ²

Compatibility

Applied Machine	Excavator
Compatible Model	PC300
