

Excavator Bucket Cutting Edge 7V1490

This bucket cutting edge is compatible with motor graders, bulldozers, and excavators. It is manufactured with either 30MnB or 16Mn material.

Product Overview

High-Performance Bucket Cutting Edge

The 7V1490 cutting edge is a robust solution engineered for heavy-duty construction machinery. Designed to provide optimal performance and longevity, this component ensures a secure fit and reliable operation in the most demanding environments. It is a versatile choice compatible with various earthmoving equipment.

Technical Specifications

Material Options	30MnB, 16Mn
Part Number	7V1490

Compatibility

Compatible Machinery

- Motorgrader
- Bulldozer
- Excavator
